

## Year 3/4 Potions (Summer Term 2022)

Poisonous potions, aromatic brews, vapour or a sticky goo... Welcome to the amazing world of potions! Choose one activity each week to complete in your homework book. Your book will need to be returned to school every Monday for the class reflection time where homework will be displayed, shared with class peers and Dojo points awarded. Remember PRESENTATION is important.

Article 28: Your right to learn and to go to school.

|                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                             |

| <p><b>Science and technology</b></p> <p>Visit BBC Bitesize and find out more about solids, liquids and gasses. Share what you have learnt you could create a poster, 3D image or anyway that you would like to</p> <p><a href="#">Solids, liquids and gases - KS2 Science - BBC Bitesize</a></p> | <p><b>Science and technology/Expressive arts</b></p> <p>Imagine you have made a potion to sell on the market. What would your logo be? Design your logo, making sure it is eye-catching and colourful</p> | <p><b>Science &amp; technology</b></p> <p>Find a recipe for baking that involves boiling or melting a substance. Either bring in your finished product or take a photo. Explain what boiling or melting you had to do to create your product</p>                                                                                     | <p><b>Humanities</b></p> <p>Research how water is used in different religions around the world? You could write about this or create a PowerPoint and share with me @ <a href="mailto:whitep7@hwbcmru.net">whitep7@hwbcmru.net</a></p>                                                      |
| <p><b>Language, Literacy and communication</b></p> <p>Visit your local library or bookshop to search for plays or stories that feature the theme of potions. Write a review and share it with others.</p>                                                                                        | <p><b>Expressive arts</b></p> <p>Can you think of songs or music with a 'magic' theme? Listen to a selection, make a playlist of your top 10.</p>                                                         | <p><b>Expressive arts</b></p> <p>Make a sketch of the any interesting bottles you have at home. Remember to add patterns, textures, shading and finer details.</p>                                                                                                                                                                   | <p><b>Science and technology/LLC</b></p> <p>Look at the layout of internet shopping sites (don't buy anything!)</p> <p>Can you create a template for an online shopping site for witches and wizards? What potions and equipment could be available? What could your company be called?</p> |
| <p><b>Health and well-being</b></p> <p>Find out about some of the herbs that grow in the garden that can have positive benefits to health. Sketch these herbs and write about the effect they can they have?</p>                                                                                 | <p><b>Numeracy</b></p> <p>Calculate how many litres of water it takes to fill a bath. Which uses less water, the shower or the bath? How can you find out?</p>                                            | <p><b>Science &amp; technology</b></p> <p>Make homemade perfume or potions using things you find in the garden or bathroom (Check with an adult first) You could use a pestle and mortar to grind up the things you find. Add liquid and then strain to get rid of the lumpy bits. What have you made? Can you name your potion.</p> |                                                                                                                                                                                                        |

# Four purposes

Ambitious, capable  
learners

Enterprising, creative  
contributors

Ethical, informed  
citizens

Healthy, confident  
individuals

AMY

## Amy

Amy believes that anybody can do anything if they work hard enough. And she's right!

CALLUM

## Callum

Callum is so creative. Some of his ideas are a bit wacky, but they're the best ones!

RHIAN

## Rhian

Rhian loves to talk, she's making new friends to help the Troopers get the support they need!

OWAIN

## Owain

Owain is so organised, he makes sure everybody is busy and having a great time!
