Remember to do your daily dos as well: timetables practice, adding 10 more, 10 less to a given number...

Play:
TTBlast - login to HWB- J2E- TTBlast

Creative

Thinking

Email me your work, dojo points will be added, and merit prizes given when we eventually get back to face to face learning

Whitep7@hwbcymru.net

Healthy me

Daily check-in and catch-up chats send me a message by email (outlook) to let me know how you are whitep7@hwbcymru.net
Let me know if you are finding anything tricky or you need extra help.

Class story 'Demon Dentist' by David Walliams

Task 1: opening scene and prologue
Listen to the prologue via the FlipGrid link: Think about this early build up to the story we are about to read. Record a 1-minute FlipGrid reply to tell me your predictions- what you think may happen in this story.
<https://flipgrid.com/3e18c1d4>

Menacing first picture: see below

Grwp porffor, glas, oren a gwrydd: Log into MyMaths www.mymaths.co.uk

Negative numbers, watch the BBC Bitesize clip www.bbc.co.uk/bitesize/clip/s/znw7tfr

Extra negative number sheets can be completed. No need to print just type or answers in a word document or write in your homework book.

Send an email to show me how you got on whitep7@hwbcymru.net

3D digestive system:

Following on from last weeks digestive system clip that you watched.

Your mission this week is to use items from your house, garden and recycling to create a model of the organs that make up the digestive system. Scroll down to see examples.

Take a picture and send to me whitep7@hwbcymru.net

Enterprising, creative contributors

Toothpaste investigation:

LO: Observe the effect fluoride in toothpaste has on calcium carbonate (EGGSHELL)

For this mission you will need 2 eggs:
Day 1)

1x egg covered in a thick layer of toothpaste (overnight)

Day 2) wash the toothpaste off the egg and submerge both eggs in vinegar (again leave overnight)

Prediction: What do you think will happen and why?

Conclusion: what do your results tell you? Key technical vocabulary:

- acetic acid
- calcium carbonate
- chemical reaction
- dissolve
- enamel

Daytime Disco

Put on music and dance. You can also play freeze dance. Every time the music stops, everyone stands still.

What is good about me?

For some reason it is always easier to think about the things that we aren't good at or don't like about ourselves.

This week you have to think of 4 things that are good about you! Draw and write these on A4 paper or use the shield template below Share your work with me Whitep7@hwbcymru.net

- a) Why do you think all the doors and shutters are closed?
b) What effect does the shadow have on you?

Task 2

Listen to the first 2 chapters from the story (read by Miss White, no laughing ha ha) on this FlipGrid link. Reply by sending me a FlipGrid video, think about what has happened so far? How do you feel about this story? Predict what you think might happen next...
