Autumn Term 2022

Dear Parents/Carers;

What happens when the Earth shakes? In this project, we'll find out about the dangerous world of natural disasters and their deadly effects. This term we'll gather rock samples, find out about different types of rocks and sort them according to their properties. By carrying out research, we'll investigate the Earth's layers and the location of volcanoes, discovering what causes them to erupt. We'll write powerful poetry inspired by our work on volcanoes. Working as archaeologists, we'll locate Mount Vesuvius on a map and find out what it was like to live in Pompeii during the eruption. Using our model making skills, we'll build earthquake-proof structures and test them out. We'll also use different modelling materials to create a volcano - watch out, it's going to blow! At the end of the topic, we'll create digital presentations, so you can see all of the exciting things we've learned about.

-Complete one activity off the homework matrix throughout the term.

-Spelling words will be sent home every half term; the children will also have time to practice these words in school every day.

-Regular times tables practise will help your child/children to become more confident and competent within numeracy tasks. Weekly MyMaths online tasks and lessons will also be set.

OUTDOOR PE THURSDAY/INDOOR PE FRIDAY PLEASE ENSURE A SUITABLE KIT IS WORN TO SCHOOL ON THESE DAYS

Please read with your child at home every night and send your child's book to school with them every day.
